

Breadcrumb Call Counts

Sort breadcrumbs by cumulative call count
Display top-5 breadcrumbs in descending order of call count

Statistics of Breadcrumb Call Counts: Origin

Statistics of Breadcrumb Call Counts: Target

Raw Breadcrumb Call Counts: Target

Display raw distribution of cumulative call-counts across all target instances for the breadcrumb with highest cumulative call-count

Cumulative Time

Sort breadcrumbs by cumulative time on the origin

Display top-5 breadcrumbs in descending order of cumulative time on origin and target

Statistics of Cumulative Time: Origin

Display statistics of distribution of individual, cumulative time for the top-5 breadcrumbs, across all origin instances

Statistics of Cumulative Time: Target

Raw Cumulative Time: Origin

Raw Cumulative Time: Target

Statistics of Low-water-mark of Argobot Pool Size: Target

Sort breadcrumbs by cumulative time on the origin

Display the distribution of low-water mark for the Argobot pool size across target instances for the top-5 breadcrumbs sorted by cumulative time

Argobot pool sizes are captured on the target when an RPC response is sent back to origin

Statistics of High-water-mark of Argobot Pool Size: Target

Sort breadcrumbs by cumulative time on the origin
Display the distribution of high-water mark for the Argobot pool size across target instances for the top-5 breadcrumbs sorted by cumulative time
Argobot pool sizes are captured on the target when an RPC response is sent back to origin

Statistics of Low-water-mark of Argobot Total Pool Size: Target

Sort breadcrumbs by cumulative time on the origin
Display the distribution of low-water mark for the Argobot total pool size across target instances for the top-5 breadcrumbs sorted by cumulative time

Argobot pool sizes are captured on the target when an RPC response is sent back to origin

Argobot total pool size includes the number of suspended work items in addition to the number of runnable work items

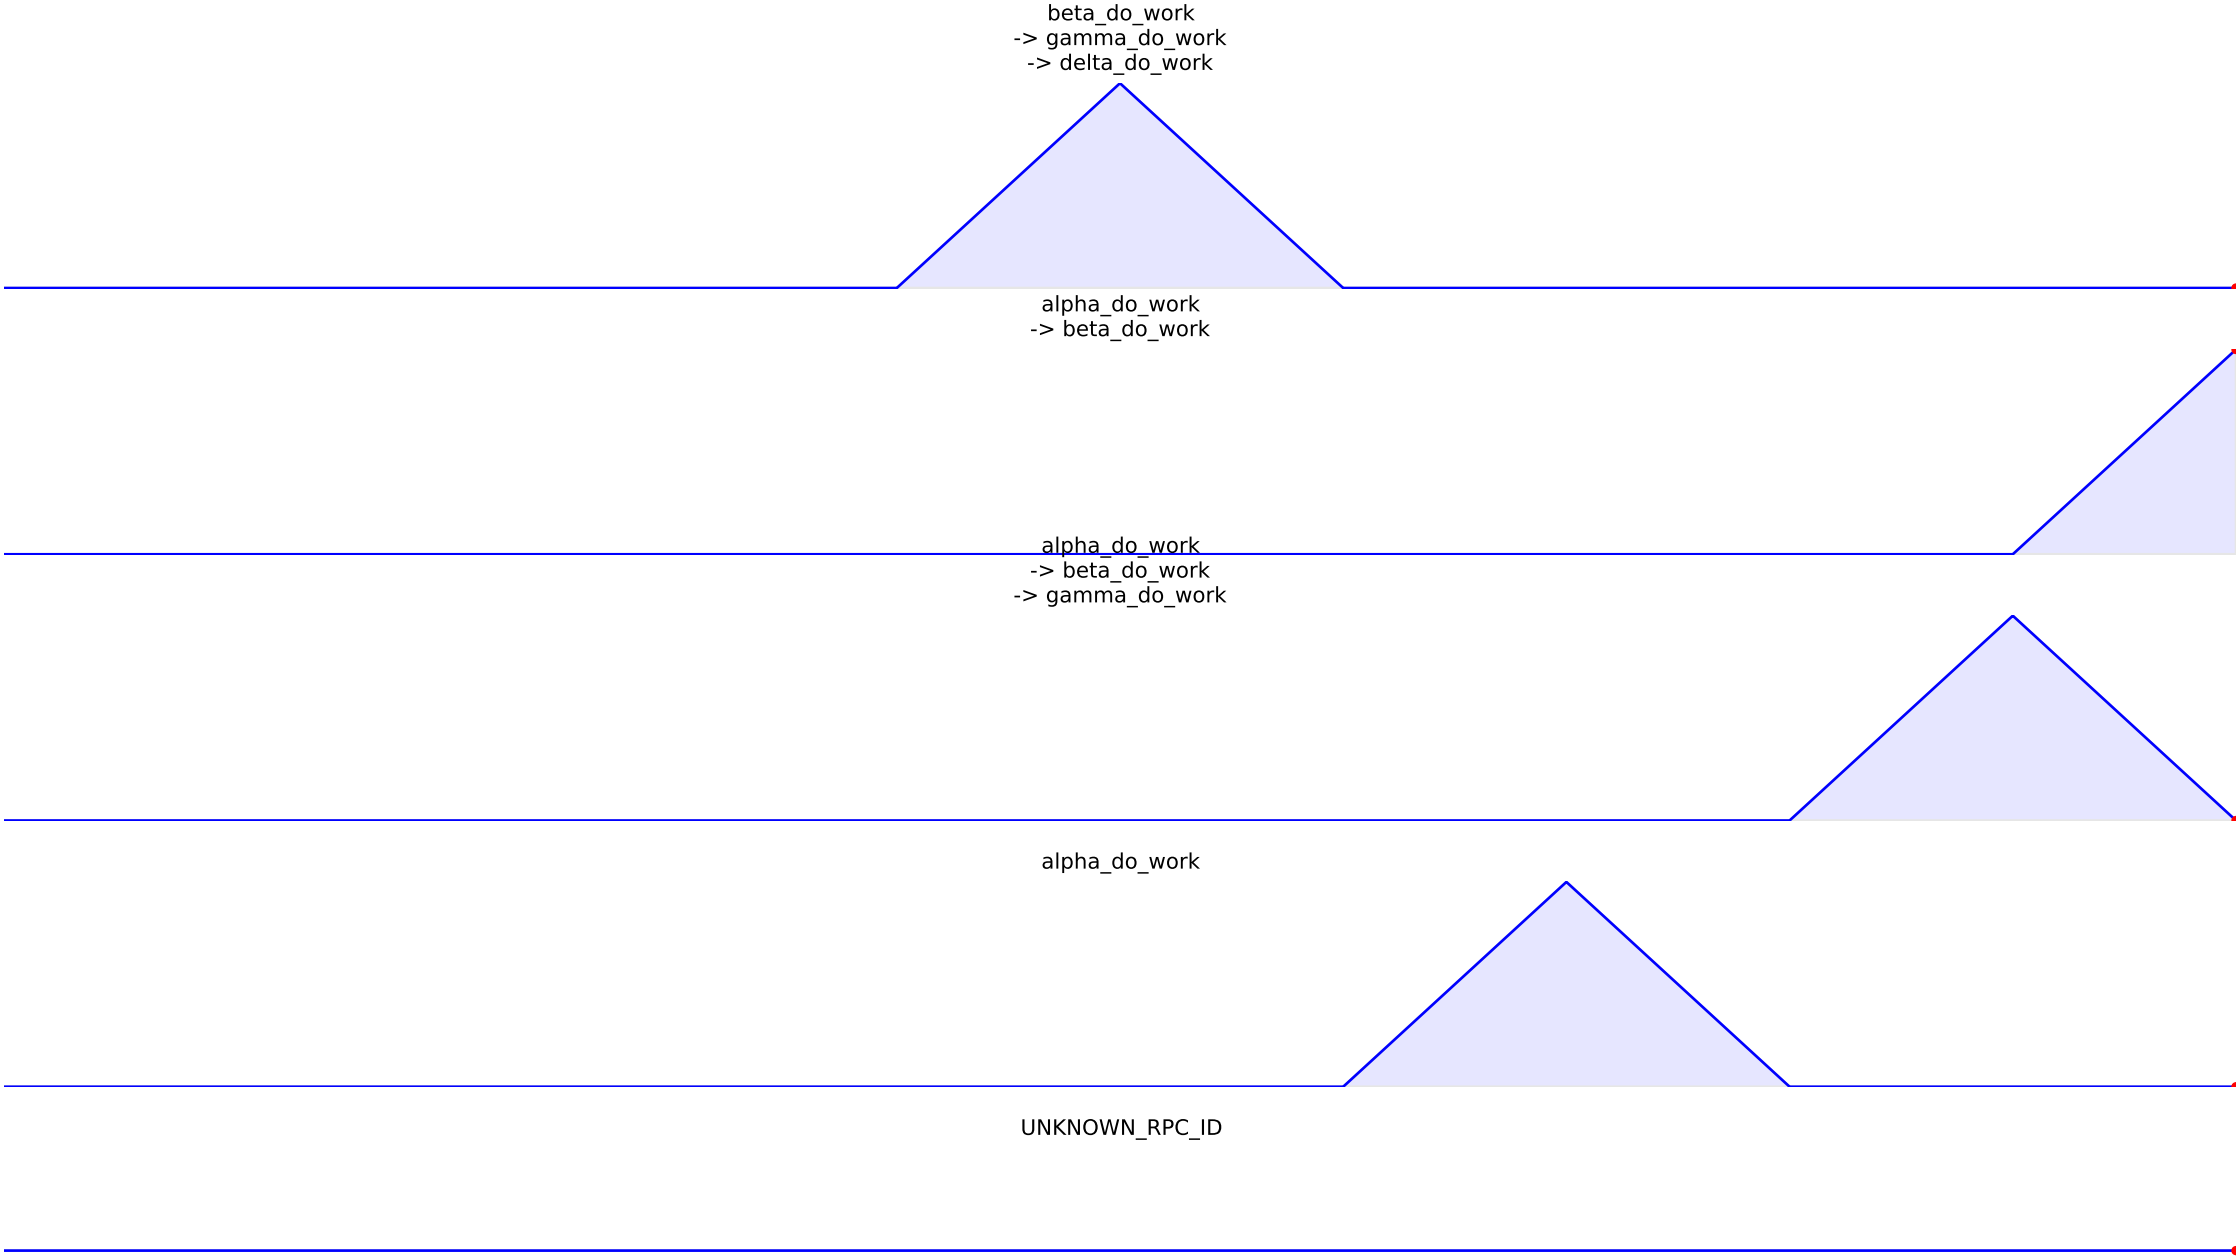

Statistics of High-water-mark of Argobot Total Pool Size: Target

Sparkline for cumulative count on target

Sort breadcrumbs by cumulative call-count
For the top-5 breadcrumbs, display sparklines for the cumulative call-count across all target instances

Sparkline for cumulative time on origin

Sort breadcrumbs by cumulative call-time on origin
For the top-5 breadcrumbs, display sparklines for the cumulative call-time across all origin instances

Sparkline for cumulative time on target

Sort breadcrumbs by cumulative call-time on origin
For the top-5 breadcrumbs, display sparklines for the cumulative call-time across all target instances
